I. Completed & Shipped Features

● 28 Features Live & Verified

1.1 ARCHITECTURE, THEME & FOUNDATION REFACTOR (PHASE 1)

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	STATUS
FEAT-01	Monolith Decomposition	Decomposed 2,652-line monolithic App.jsx into modular architecture: src/theme/, src/components/, src/pages/, and src/utils/.	SHIPPED
FEAT-02	Centralized Design Tokens	Curated brand color palette (Earth Brown, Moss Green, Warm Amber, Charcoal, Cream) and typography tokens (Cormorant Garamond & Outfit).	SHIPPED
FEAT-03	Time-Based Theme Engine	Automatic daylight (morning coffee) to evening (candlelit wine bar) switch based on UK London time with admin switch-hour override.	SHIPPED
FEAT-04	Dedicated Page Routing	Client-side routing for Home, Menu, Social Impact, Our Story, Contact, Staff Portal (/staff), and Menu Studio (/studio).	SHIPPED

1.2 MENU MANAGEMENT & IN-BROWSER STUDIO (PHASE 2)

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	STATUS
FEAT-05	Interactive Menu Studio	In-browser spreadsheet for batch-editing daytime and evening dishes, descriptions, prices, categories, and dietary pills (V, VE, GF, GF*).	SHIPPED
FEAT-06	CSV Import & Export	1-click download of live menu as sixth_element_menu.csv for editing in Excel / Google Sheets, plus drag-and-drop CSV upload and parsing.	SHIPPED
FEAT-07	1-Click GitHub Direct Publisher	Client-side GitHub API publisher allowing authorized admins to push menu changes directly to GitHub without CLI tools.	SHIPPED
FEAT-08	Integrated Menu Studio Route	Rendered Menu Studio as a full-page experience (/studio) retaining website brand lockup and main navigation links.	SHIPPED

1.3 STAFF & ROLE-BASED ACCESS CONTROL (RBAC)

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	STATUS
FEAT-09	Role-Based Access Control	Multi-user credential store with 5 roles: Owner (Pooja), Admin (Deepak), General Manager, Shift Lead, and Chef / Kitchen.	SHIPPED
FEAT-10	Granular Publishing Permissions	Only Admin and Owner roles can publish live site updates; other staff roles edit menus and save local drafts.	SHIPPED
FEAT-11	User Management UI	Dedicated Admin tab to view staff, add team members with custom titles/roles, update credentials, and manage team roster.	SHIPPED
FEAT-12	Cross-Network Auth & Fallback	Secure SHA-256 password hashing with pure JavaScript cryptographic fallback for testing across local WiFi/LAN (http://192.168.1.195:3000/).	SHIPPED

1.4 HOSTING, CI/CD PIPELINE & MODERNIZATION (PHASE 3)

FEATURE		CUSTOMER EXPERIENCE & TECHNICAL SCOPE	STATUS
FEAT-13	GitHub Actions CI/CD	Automated deployment workflow (.github/workflows/deploy.yml) building Vite and deploying to GitHub Pages on every push to main.	SHIPPED
FEAT-14	Vercel Elimination	Removed legacy serverless API routes and Vercel dependencies, transitioning to autonomous, permanent zero-cost hosting.	SHIPPED
FEAT-15	Custom Domain & SPA Routing	Configured public/CNAME (the6thelement.co.uk) and public/404.html SPA redirect script for smooth page refreshes.	SHIPPED
FEAT-16	Supabase Decommissioning	Removed unused database connections; converted promotions, announcement bars, and operational flags to persistent browser storage.	SHIPPED

1.5 GUEST EXPERIENCE & MOBILE OPTIMIZATIONS

FEATURE		CUSTOMER EXPERIENCE & TECHNICAL SCOPE	STATUS
FEAT-17	Toast Tables Broadened Modal	Expanded reservation modal container to min(980px, 95vw) for comfortable calendar, party size, and seating-time selection.	SHIPPED
FEAT-18	iOS & Android Touch Tuning	Added viewport-fit=cover, dynamic viewport heights (100dvh), notch safe padding, 16px input font size, and removed 300ms tap delay.	SHIPPED
FEAT-19	Top Announcement Bar	Configurable site-wide promotional banner with dismiss/persist logic and real-time Admin Console management.	SHIPPED
FEAT-20	Staff Portal Dedicated Page	Replaced narrow 380px drawer with a full-width dedicated workspace at /staff.	SHIPPED
FEAT-21	Static Content Sanitization	Removed hardcoded personal names from static copy, footers, placeholders, and subtitles for a polished, professional finish.	SHIPPED
FEAT-22	Automated Navigation AM/PM	Removed manual sun/moon toggle buttons; theme now transitions dynamically and automatically based on London time.	SHIPPED

1.6 MARKETING TICKER, DATA PIPELINES & PRODUCTION RELEASE (NEW)

FEATURE		CUSTOMER EXPERIENCE & TECHNICAL SCOPE	STATUS
FEAT-23 (BK-15)	Scrolling Promotional Marquee	GPU-accelerated horizontal ticker with hover-to-pause, pause toggle button (II), configurable speed (slow/normal/fast), and interactive offer details modal.	SHIPPED
FEAT-24 (DATA-01)	Historical Sales Catch-Up (73 Days)	Processed and posted historical daily sales journals from Toast POS directly into Xero for the complete launch catch-up period.	SHIPPED
FEAT-25 (OPS-01)	Diagnostic Logging & Health Dashboard	Configurable execution logging, automated manager emails, and failure alerting for morning 05:15 AM sync runs.	SHIPPED
FEAT-26 (GO-01)	Production GitHub Pages Release	Merged dev into main and verified production bundle build and deployment via GitHub Actions (Run #37307513124).	SHIPPED
FEAT-27 (BK-23)	1-Click Print-Ready PDF Menu Generator	Physical dining room menu generator with brand typography, 2-column A4 and A5 card presets, live scaled preview, and 1-click browser print integration in Menu Studio and Staff Portal.	SHIPPED
FEAT-28 (BK-16)	Local SEO & Google Search Enhancement	Comprehensive technical SEO suite: sitemap.xml, robots.txt, canonical domain alignment, Google ReserveAction Toast Tables schema, rich OpenGraph metadata, and Richmond/East Sheen local search keywords.	SHIPPED

2. Immediate Go-Live Milestones (Pending Cutover)

Action Required for the6thelement.co.uk

	MILESTONE	ACTION REQUIRED & VERIFICATION STEP	PRIORITY	STATUS
GO-01	Merge dev into main	Merged verified dev branch into main; production bundle built and deployed to GitHub Pages.	HIGH	COMPLETE
GO-02	GoDaddy DNS Cutover (Phase 4)	Replace old Vercel A record (216.198.79.1) with 4 GitHub Pages Apex IPs (185.199.108.153, 109.153.110.153, 111.153) and set www CNAME to the-6th-element.github.io.	HIGH	PENDING DNS
GO-03	GitHub Pages HTTPS Enforcement	Enable Enforce HTTPS in GitHub repository Settings → Pages once DNS resolves to bind the free Let's Encrypt SSL certificate.	HIGH	PENDING CUTOVER
GO-04	Production Verification (Phase 5)	Run full end-to-end verification on https://the6thelement.co.uk: Toast Tables booking, Menu Studio 1-click publishing drill, mobile touch checks, and Google Schema.org SEO audit.	HIGH	PENDING CUTOVER

3. Prioritized Feature Backlog & Product Roadmap

25 Candidate Enhancements

3.1 ANALYTICS, FOOTFALL & BUSINESS INTELLIGENCE

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	PRIORITY	STATUS
BK-28	Monitor Website Traffic & Build Analytics	Privacy-conscious web traffic monitoring (daily visitors, session duration, referral sources) and customer intent tracking (menu views, reservations, takeaway intent, maps directions) cross-correlated with Toast ePOS covers and daily revenue in morning 05:15 AM digests.	HIGH	PRIORITIZED

3.2 OPERATIONAL & ADMIN TOOLING

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	PRIORITY	STATUS
BK-23	1-Click Print-Ready PDF Menu Generator	Export magazine-grade, formatted A4/A5 physical menus directly from the in-browser Menu Studio with 1 click, eliminating manual InDesign/Word formatting when dishes or prices change.	HIGH	COMPLETE
BK-11	Toast POS Direct Menu Integration	Explore direct sync between Toast POS API and website menu to eliminate manual dual-entry of menu items and pricing.	HIGH (FUTURE)	PRIORITIZED
BK-12	Menu Item Availability / 86 Toggle	Quick-action switch in Staff Portal allowing staff to mark individual dishes as "Sold Out for Today" without deleting them from the master database.	HIGH	PRIORITIZED
BK-13	Audit Log of Menu Changes	Visual timestamped history in Staff Portal recording which user made what price or item modification.	MEDIUM	BACKLOG

3.3 GUEST OPERATIONS & HOSPITALITY

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	PRIORITY	STATUS
BK-06	Digital Gift Cards Integration	Integration with a digital gift voucher provider (Toast Gift Cards, Square, or Stripe) for custom-amount vouchers with instant email delivery.	HIGH	PRIORITIZED
BK-20	"Dog-Friendly & Richmond Walkers" Guide	Dedicated section and badge highlighting dog-friendly indoor seating, heated terrace, complimentary organic treats, water bowls, and takeaway coffee hatch for Richmond Park walkers.	HIGH	PRIORITIZED

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	PRIORITY	STATUS
BK-24	Context-Aware WhatsApp Concierge	Floating WhatsApp button with pre-populated contextual messages based on user intent (large parties of 6+ on Reservations, daily dietary queries on Menu, dog-friendly or table walk-in queries on Contact).	HIGH	PRIORITIZED
BK-19	Live Walk-in & Table Availability Indicator	Real-time 1-tap status switch in Staff Portal allowing staff to signal ● Walk-ins Welcome / ● Short Wait / ● Bookings Only to eliminate customer hesitation and drive spontaneous visits.	MEDIUM	PRIORITIZED
BK-07	Interactive Dietary & Allergen Matrix	Filterable menu view allowing guests to highlight all items suitable for specific allergen profiles (Nut-Free, Celery, Sesame, Dairy-Free, Egg-Free).	MEDIUM	BACKLOG
BK-04	Click & Collect / Takeaway Ordering	Simple mobile-first takeaway ordering for morning coffees, pastries, and brunch dishes with time-slot collection.	MEDIUM	BACKLOG
BK-05	Private Hire & Events Inquiry Portal	Interactive inquiry form for private venue hire, evening gatherings, masterclasses, and corporate bookings with date checker and guest estimator.	MEDIUM	BACKLOG

3.4 MARKETING, SOCIAL & COMMUNITY GROWTH

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	PRIORITY	STATUS
BK-27	OpenGraph Rich Social Sharing Cards	High-resolution OpenGraph and Twitter/X card metadata ensuring links shared in local Richmond/East Sheen Facebook groups, WhatsApp chats, and iMessage display stunning branded imagery and compelling venue copy.	HIGH	PRIORITIZED
BK-03	Automated Live Instagram Feed Sync	Replace static photos with automated periodic sync fetching posts and reels from @the.sixth.element.210 via Meta Graph API / GitHub Actions cron, caching locally with zero monthly subscription fees .	HIGH	PRIORITIZED
BK-17	Interactive Day-to-Night Vibe Slider	Interactive time-scrubber on the homepage allowing visitors to slide from 8:00am Morning Coffee to 12:30pm Brunch to 5:30pm Golden Hour to 9:00pm Candlelit Lounge, watching lighting and dishes morph dynamically.	HIGH	PRIORITIZED
BK-26	"VIP Tasting & Secret Drops" WhatsApp Channel	Opt-in community broadcast channel for Richmond locals receiving rare natural wine uncorking drops, acoustic night invites, and exclusive seasonal perks with ~95% open rates.	MEDIUM	BACKLOG
BK-21	Ticketed Tasting Masterclasses & Workshops	Prepaid ticketing system for intimate, limited-seat natural wine tastings, coffee cupping sessions with Old Spike, and live acoustic music nights.	MEDIUM	BACKLOG
BK-22	Interactive Provenance & Producers Map	Visual interactive story ("Story of the Soil") showcasing supplier origins: Old Spike coffee in Peckham, artisan sourdough bakeries, British charcuterie, and biodynamic European vineyards.	MEDIUM	BACKLOG
BK-08	VIP Club / Newsletter Signup	Elegant footer and popup modal to capture guest emails (e.g. Mailchimp / Klaviyo / Resend) with automated welcome offer.	MEDIUM	BACKLOG
BK-09	Live Google Reviews Sync	Automatic periodic sync with Google Places API to showcase fresh 5-star customer testimonials dynamically.	LOW	DISCOVERY
BK-10	Community / Local Events Calendar	Lightweight events calendar for live music evenings, coffee cupping sessions, and Richmond community collaborations.	LOW	DISCOVERY

3.5 MEDIA, VISUAL & AUDIO EXPERIENCE

	FEATURE	CUSTOMER EXPERIENCE & TECHNICAL SCOPE	PRIORITY	STATUS
BK-01	Ambient Video Background Loop	Subdued, high-aesthetic background video loop of the café/lounge (morning steam, evening wine pour) with battery-saving auto-pause on mobile viewports.	MEDIUM	BACKLOG
BK-02	Photo & Video Reels Lightbox	Interactive gallery showcasing interior architecture, latte art, cocktails, and seasonal dishes with touch-swipe on mobile devices.	MEDIUM	BACKLOG
BK-25	Instagram Story Circles & Mobile Highlights	Tappable story bubbles on mobile homepage (<i>Today's Bakes</i> , <i>Wine of the Week</i> , <i>Old Spike Coffee</i> , <i>Dogs of Sixth Element</i>) providing quick video reel previews without leaving the site.	MEDIUM	BACKLOG
BK-18	"Sounds of The Sixth Element" Spotify Player	Lifestyle music widget linking to curated daytime acoustic/lo-fi and evening vinyl/jazz playlists to immerse guests in the venue's audio identity.	LOW	DISCOVERY

3.6 QUALITY ASSURANCE, AUTOMATED REGRESSION & SEO

FEATURE		CUSTOMER EXPERIENCE & TECHNICAL SCOPE	PRIORITY	STATUS
BK-14	Full Automated Regression Test Pack	Build and maintain an automated regression pack (unit, component, and end-to-end tests) covering all critical journeys: routing, AM/PM switching, Toast Tables booking, Menu Studio CSV import/export, RBAC permissions, and mobile viewports. Runs in CI/CD before any future deployment.	HIGH	PRIORITIZED
BK-16	Full SEO Analysis & Google Search Enhancement	Comprehensive technical and content SEO audit to boost Google rankings and local pack visibility for Richmond and London dining: sitemap.xml, robots.txt, dynamic OpenGraph/meta tags, expanded Schema.org JSON-LD (Restaurant, Menu, ReserveAction), and Core Web Vitals optimization.	HIGH	COMPLETE

3.7 TOAST & XERO DATA HUB ROADMAP

FEATURE		CUSTOMER EXPERIENCE & TECHNICAL SCOPE	PRIORITY	STATUS
DATA-02	Shift & Staff Gratuity Distribution Reporting	Automated reporting on daily service charge and tip allocations across lunch and evening shifts.	MEDIUM	BACKLOG
DATA-03	Tender Reconciliation Alerting	Flag discrepancies between declared cash drawer totals in Toast and physical bank deposits.	LOW	DISCOVERY

How to Add or Prioritize New Feature Requests:
Whenever you have a new idea or priority adjustment, simply state it in plain English during your development sessions. Every item will be scoped, estimated, prioritized, and tracked in this living document across both repositories.
